Before starting a weight loss program, talk with your healthcare provider about the program, and about any medications or dietary supplements you are using, including especially Coumadin (warfarin), lithium, diuretics, or medications for diabetes, high blood pressure or thyroid conditions. Do not participate in any OPTAVIA Program until you are cleared by your healthcare provider if you have or have had a serious illness (e.g. cardiovascular disease including heart attack, diabetes, cancer, thyroid disease, liver or kidney disease, eating disorders such as anorexia or bulimia), or any other condition requiring medical care or that may be affected by weight loss.

The OPTAVIA for Teens plan is the only OPTAVIA Program appropriate for teens (13 to 17 years of age). While adjusting to the intake of a lower calorie level and dietary changes, some people may experience dizziness, lightheadedness, headache, fatigue, or gastrointestinal disturbances (such as abdominal pain, bloating, gas, constipation, diarrhea, or nausea). Consult your healthcare provider for further guidance on these or any other health concerns. Seek immediate medical attention if you experience muscle cramps, tingling, numbness, confusion, or rapid/irregular heartbeat as these may be a sign of a more serious health condition.

Six Steps to Optimal Health

Your Steps to Integration

Our OPTAVIA Community provides encouragement and real answers along the path to health, confidence, and vitality. It’s all built on our innovative, six-step approach that will enable you to reach your personal goals and create your own foundation for lifelong optimal health.

The six steps are:

- **Step 1**: Prepare for your journey
- **Step 2**: Achieve a healthy weight
- **Step 3**: Transition to healthy eating
- **Step 4**: Live the Habits of Health
- **Step 5**: Optimize health for your age
- **Step 6**: Potential to live a longer, healthier life*

*No one can predict how long you are going to live, but research suggests that making an overall lifestyle change by taking an active role in your choices and behavior, including losing weight, eating healthier, moving more, and reducing stress, has the potential to help you live a longer, healthier life.*
Step 1

Prepare for Your Journey

As you take your first step toward a healthier life, your OPTAVIA Coach will be there for you, to help you see what’s possible and to work with you to set the right goals for yourself. For most people, learning the habits that lead to optimal health starts with achieving a healthy weight. Talk to your OPTAVIA Coach about:

- Any questions you have about starting your journey.
- Learning the Habits of Health Transformational System.
- Helping you complete your Wellbeing Evaluation online.
- Guiding you to set goals for your health and wellness.

Step 3

Transition to Healthy Eating

When you know what optimal nutrition looks like, healthy eating becomes second nature. Work with your independent OPTAVIA Coach to calculate a calorie intake level that helps maintain your new, healthy weight. Our Optimal Health 3 & 3 Plan includes three Optimal Health Fuelings and three balanced meals daily. Please continue to enjoy your OPTAVIA Fuelings or mix it up, whatever works best with your lifestyle. Choose the right portion sizes and start increasing your total energy expenditure (calories burned daily) by moving more. Visit OPTAVIA.com for our energy expenditure calculator and meal plans by our Registered Dietitians. Increasing your activity is also an important part of maintaining a healthy weight. And don’t forget, your OPTAVIA Coach is always there for support.

**Recommended readings:** Part 2.8 in *Dr. A’s Habits of Health, Second Edition* and Elements 14 - 16 in *Your LifeBook*.

Step 4

Live the Habits of Health

The more you incorporate healthy habits into everything you do, the better you may look and feel. These changes become a positive part of your routine. Next, you will learn the Habits of Healthy Motion and Habits of Healthy Sleep & Energy, all in partnership with your OPTAVIA Coach.

**Recommended readings:** Parts 2.9 - 2.13 in *Dr. A’s Habits of Health, Second Edition* and Elements 17 - 19 in *Your LifeBook*.
Step 5

Optimize Health for Your Age
You’ve integrated the foundational Habits of Health. Little victories are adding up to big ones. You’re feeling healthier, more confident, and your energy levels are up. You’ve successfully incorporated the Habits of Health into your lifestyle.

Another aspect of your lifelong transformation is optimization. Managing stress and organizing your life around what matters most to you. This is when you see that what began as a journey to optimal health can become a powerful opportunity. Your transformation can become an inspiration to others as you move from being the Coached to the Coach. You’re building a growing, successful business while showing others the way. You can become a Leader in the OPTAVIA Community.

Step 6

The Potential to Live a Longer*, Healthier Life
No one can predict how long you are going to live, but research suggests that making an overall lifestyle change by taking an active role in your choices and behavior, including losing weight, eating healthier, moving more, and reducing stress, has the potential to help you live a longer*, healthier life.

An optimal life means staying as healthy as you can, for as long as you can. After all, with renewed health and energy, your life can become whatever you wish it to be! Optimal health – indicated by healthy weight, healthy motion, healthy sleep, healthy habits, and the desire to get better.

It’s as simple as this:

- Eat 4 Fuelings + 2 Lean & Green meals + 1 healthy snack

Each OPTAVIA Fueling has a nearly identical nutritional profile designed by our team of food scientists and refined by our Registered Dietitians and nutrition team.

you can have your lean & green meals any time of day.
What is a Lean & Green Meal?
A Lean & Green meal includes 5 to 7 ounces of cooked lean protein plus three servings of non-starchy vegetables and up to two servings of healthy fats, depending on your lean protein choices.

Enjoy your Lean & Green meal any time of day – whatever works best for your schedule.

*If you are dining out or tracking your intake, use the following Lean & Green Meal Nutritional Parameters to help guide your choices:*

Healthy Fats
Every day, incorporate up to two servings of healthy fats into your Lean & Green meal. Healthy fats are important because they help your body absorb vitamins like A, D, E and K. They also help your gallbladder work properly. A serving of healthy fat should have 5 grams of total fat and less than 5 grams of carbohydrate. You’ll find a list of healthy fat choices on page 17.

Lean & Green Meal: The "Lean"
Lean Tips:
- Portion size recommendations are for cooked weight
- Choose meats that are grilled, baked, broiled, or poached – not fried.
- Each week, try to eat at least two servings of fish rich in omega-3 fatty acids (salmon, tuna, mackerel, trout, or herring).
- Feel free to choose meatless options like tofu and tempeh.
For a complete list of meatless options, please refer to our Vegetarian Information Sheet or contact Nutrition Support at NutritionSupport@OPTAVIA.com.

Choose the appropriate serving size of any protein from the list on the following pages. We’ve sorted protein options into lean, leaner, and leanest. All options are appropriate for the Optimal Weight 4 & 2 & 1 Plan; this just helps you make informed food choices.

*For any protein option not on the list, you may use the following nutritional information to determine if it is appropriate on the OPTAVIA Program:*

Once you’ve achieved your healthy weight, we encourage you to include ALL vegetables for long-term health.

B ACTIVE is an excellent source of B Vitamins, which help support cellular energy production.
