Before You Begin

We recommend that you contact your healthcare provider before starting and throughout your OPTAVIA journey, especially if you are taking medications (e.g., diabetes medications, high blood pressure medications, Coumadin (warfarin), lithium, thyroid medications etc.).

MEDICAL DISCLAIMER:

The Company ("We") recommends that you consult your healthcare provider prior to starting any weight loss program, and during the course of your weight loss program. Do NOT use any OPTAVIA® plan if you are pregnant or under the age of 13.

Before starting a weight loss program, talk with your healthcare provider about the program, and about any medications or dietary supplements you are using, including especially Coumadin (warfarin), lithium, diuretics, or medications for diabetes, high blood pressure or thyroid conditions. Do not participate in any OPTAVIA Program until you are cleared by your healthcare provider if you have or have had a serious illness (e.g. cardiovascular disease including heart attack, diabetes, cancer, thyroid disease, liver or kidney disease, eating disorders such as anorexia or bulimia), or any other condition requiring medical care or that may be affected by weight loss.

The OPTAVIA for Teens plan is the only OPTAVIA Program appropriate for teens (13 to 17 years of age). The Optimal Weight 5 & 1 Plan® is NOT appropriate for teens, sedentary older adults (65 years and older), nursing mothers, people with gout, some people with diabetes, and those who exercise more than 45 minutes per day - if you fall into one of these categories, please consult your healthcare provider and refer to www.OPTAVIA.com and talk with your independent OPTAVIA Coach about other OPTAVIA plans that may be appropriate. For special medical or dietary needs, including food allergies, refer to our program information online, consult your healthcare provider and talk to your OPTAVIA Coach. Do not consume an OPTAVIA product if you are allergic to any of that product’s ingredients which are listed on the product packaging and on the OPTAVIA website.

We recommend drinking 64 ounces of water each day. Consult with your healthcare provider prior to changing the amount of water you drink as it can affect certain health conditions and medications.

NOTE: Rapid weight loss may cause gallstones or gallbladder disease or temporary hair thinning in some people. While adjusting to the intake of a lower calorie level and dietary changes, some people may experience dizziness, lightheadedness, headache, fatigue, or gastrointestinal disturbances (such as abdominal pain, bloating, gas, constipation, diarrhea, or nausea). Consult your healthcare provider for further guidance on these or any other health concerns. Seek immediate medical attention if you experience muscle cramps, tingling, numbness, confusion, or rapid/irregular heartbeat as these may be a sign of a more serious health condition.

For avoidance of doubt, the OPTAVIA Programs and products are not labelled, advertised or promoted for any specific medicinal purpose, i.e. treatment or prevention, implied or otherwise, of any disease or disorder, including its related conditions.

The OPTAVIA programs, products, and any of its materials and/or information do not in any way constitute medical advice or substitute for medical treatment. As individuals may have different responses to dietary products or changes in diet, consult with your healthcare provider regarding any medical concerns.

The Optimal Weight 5 & 2 & 2 Plan

Our Optimal Weight 5 & 2 & 2 Plan is perfect for you if you prefer a flexible meal plan to help you reach a healthy weight.

The Optimal Weight 5 & 2 & 2 Plan can meet the needs of a wide range of individuals. It is suitable for you if you:
- Want to incorporate all of the food groups, including fruit, dairy, and starches
- Have type 1 diabetes and are closely monitored by your healthcare provider
- Have type 2 diabetes and over 100 pounds to lose
- Are 65 years or older and not regularly active and/or have over 100 pounds to lose
- Exercise more than 45 minutes per day
- Have less than 15 pounds to lose

It’s as simple as this:
- Eat 5 Fuelings + 2 Lean & Green meals + 2 healthy snacks
- Eat six times daily, once every two to three hours. While 5 & 2 & 2 does not add up to six, this guide will show you how you can plan your meals throughout the day and add variety, too!

Each OPTAVIA Fueling has a nearly identical nutritional profile designed by our team of food scientists and refined by our Registered Dietitians and nutrition team.

Each OPTAVIA Fueling is scientifically formulated with the right balance of carbohydrates, protein and fat to help you achieve a healthy weight on the Optimal Weight 5 & 2 & 2 Plan.

OPTAVIA Fuelings are clean label, and do not contain colors, flavors or sweeteners from artificial sources. Each contains the patented probiotic GanedenBC® to support digestive health.*

In addition to five Fuelings each day, you’ll learn healthy habits - how to make lean and green meals and choose healthy snacks for you and your family.

*As part of a balanced diet and healthy lifestyle.
you can have your Lean & Green meals any time of day
What is a Lean & Green Meal?
A Lean & Green meal includes 5 to 7 ounces of cooked lean protein plus three servings of non-starchy vegetables and up to two servings of healthy fats, depending on your lean protein choices.

Enjoy your Lean & Green meal any time of day – whatever works best for your schedule.

If you are dining out or tracking your intake, use the following Lean & Green Meal Nutritional Parameters to help guide your choices:

Healthy Fats
Every day, incorporate up to two servings of healthy fats into your Lean & Green meal. Healthy fats are important because they help your body absorb vitamins like A, D, E and K. They also help your gallbladder work properly. A serving of healthy fat should have 5 grams of total fat and less than 5 grams of carbohydrate. You’ll find a list of healthy fat choices on page 17.

Lean & Green Meal: The "Lean"
Lean Tips:
- Portion size recommendations are for cooked weight
- Choose meats that are grilled, baked, broiled, or poached – not fried.
- Each week, try to eat at least two servings of fish rich in omega-3 fatty acids (salmon, tuna, mackerel, trout, or herring).
- Feel free to choose meatless options like tofu and tempeh.
For a complete list of meatless options, please refer to our Vegetarian Information Sheet or contact Nutrition Support at NutritionSupport@OPTAVIA.com.

Choose the appropriate serving size of any protein from the list on the following pages. We’ve sorted protein options into lean, leaner, and leanest. All options are appropriate for the Optimal Weight 4 & 2 & 1 Plan; this just helps you make informed food choices.

For any protein option not on the list, you may use the following nutritional information to determine if it is appropriate on the OPTAVIA Program:

**NOTE:** All vegetables promote healthful eating, but on the Optimal Weight 4 & 2 & 1 Plan, we eliminate the highest-carbohydrate vegetables (such as carrots, corn, peas, potatoes, onions, edamame, and brussel sprouts) to enhance your results. Once you’ve achieved your healthy weight, we encourage you to include ALL vegetables for long-term health.
Healthy Snacks
On the Optimal Weight 5 & 2 & 2 Plan you may incorporate two servings of a starch, fruit, dairy, or OPTA VIA Snack into any of your meal times. While 5 & 2 & 2 does not add up to six, remember to keep your meals at six per day, spaced two to three hours apart, for optimal blood sugar and hunger control.
