COACH TIPS:

As your Client begins their journey to optimal wellbeing, they may feel hungry, tired, or irritable as their body adjusts to a new way of eating. While adjusting to intake of a lower-calorie level and diet changes, some people may experience temporary lightheadedness, dizziness or gastrointestinal disturbances.

When speaking to your Clients, here are a few additional tips to make the adjustment period easier into fat burning for your Clients.

You can remind them to:
• Download and use the Habits of Health® App to track their Fuelings and water intake.
• Stay hydrated with water.*
• Consider choosing a start date when you don’t expect any social food-centered events.
• Stay busy.
• Approach their health journey, one day at a time.

*We recommend drinking 64 ounces of water each day. Talk with your healthcare provider prior to changing the amount of water you drink as it can affect certain health conditions and medications.
### HEALTH ASSESSMENT: CLIENT CHECK-IN TRACKER

Make sure to call your Client during the first week per the schedule below!

**REMEMBER TO CONTINUE TO CHECK-IN WITH YOUR CLIENT FROM DAY 7 ONWARD**

Please use the following pages to continue your check-ins. Confirm a weekly check-in day. ☐ S ☐ M ☐ T ☐ W ☐ T ☐ F ☐ S

Ask them: "Have you shared your success with anyone? Are people asking you about your transformation?"

When that happens, you can refer those people to me and receive "X" (if you choose to do a referral program on your own to thank people for referrals, please discuss with your Business Coach). Or, because people often prefer to be coached by their friends and family, you may want to consider Coaching them yourself. A significant percentage of our Coaches were Clients first who became healthy and then decided to "pay it forward."
