Teen Boys Plan

Lifelong Transformation,
One Healthy Habit at a Time®
Welcome to OPTAVIA!

At OPTAVIA, we believe you can live the best life possible, but that requires a healthy you. We help you achieve lifelong transformation by incorporating healthy habits into everything you do. These habits get your mind and body working together, to work for you. Every simple new habit, every healthy decision, every positive change leads to more.

If you’re a young man between that ages of 13 to 18 and want to reach and maintain a healthy weight, OPTAVIA offers a simple and easy to follow plan*. It all starts with achieving a healthy weight. This is the catalyst for bigger changes. When you achieve your optimal weight, you increase your health, confidence, and vitality.

OPTAVIA offers two plans for teens. Work with your healthcare provider, who can help you pick which plan is better for you based on your Body Mass Index (BMI) percentile. Your BMI is a calculation based on your weight, height, and age.

Get Healthy Now Plan

Teen boys who have a BMI higher than 95% of boys their age and who may benefit from losing weight should use this plan. You’ll consume approximately 1,800 calories each day to lose weight safely and gradually. The Get Healthy Now Plan chart on the following page shows you how many servings you should eat from each food group, including three OPTAVIA Fuelings per day. You can use the Get Healthy Now sample meal plan as a guide to what you should eat each day.

Steady As You Grow Plan

Teen boys with a BMI between 85% and 95% of others their age should use this plan to maintain their current weight as they grow taller so they can be healthier and more active. The daily calorie limit is about 2,000 calories. The Steady as You Grow Plan chart on the following page shows you how many servings you should eat from each food group, including two OPTAVIA Fuelings per day. You can use the Steady as You Grow sample meal plan as a guide to what you should eat each day.

*Do not use the OPTAVIA program if you are under the age of 13 years old.
your best life is waiting
Before You Begin

We recommend that you contact your healthcare provider before starting and throughout your OPTAVIA journey, especially if you are taking medications (e.g., diabetes medications, high blood pressure medications, Coumadin® (warfarin), lithium, thyroid medications etc.).

MEDICAL DISCLAIMER:

The Company (“We”) recommends that you consult your healthcare provider prior to starting any weight loss program, and during the course of your weight loss program. Do NOT use any OPTAVIA plan if you are pregnant or under the age of 13.

Before starting a weight loss program, talk with your healthcare provider about the program, and about any medications or dietary supplements you are using, including especially Coumadin® (warfarin), lithium, diuretics, or medications for diabetes, high blood pressure or thyroid conditions. Do not participate in any OPTAVIA plan until you are cleared by your healthcare provider if you have or have had a serious illness (e.g. cardiovascular disease including heart attack, diabetes, cancer, thyroid disease, liver or kidney disease, eating disorders such as anorexia or bulimia), or any other condition requiring medical care or that may be affected by weight loss.

The OPTAVIA for Teens plan is the only OPTAVIA program appropriate for teens (13 to 17 years of age). The Optimal Weight 5 & 1 Plan® is NOT appropriate for teens, sedentary older adults (65 years and older), nursing mothers, people with gout, some people with diabetes, and those who exercise more than 45 minutes per day – if you fall into one of these categories, please consult your healthcare provider and refer to www.OPTAVIA.com and talk with your OPTAVIA Coach about other OPTAVIA plans that may be appropriate. For special medical or dietary needs, including food allergies, refer to our program information online, consult your healthcare provider and talk to your OPTAVIA Coach. Do not consume an OPTAVIA product if you are allergic to any of that product’s ingredients which are listed on the product packaging and on the OPTAVIA website.

We recommend drinking 64 ounces of water each day. Consult with your healthcare provider prior to changing the amount of water you drink as it can affect certain health conditions and medications.

NOTE: Rapid weight loss may cause gallstones or gallbladder disease. While adjusting to the intake of a lower calorie level and dietary changes, some people may experience dizziness, light headedness, headache, fatigue, or gastrointestinal disturbances (such as abdominal pain, bloating, gas, constipation, diarrhea, or nausea). Consult your healthcare provider for further guidance on these or any other health concerns. Seek immediate medical attention if you experience muscle cramps, tingling, numbness, confusion, or rapid/irregular heartbeat as these may be a sign of a more serious health condition.

For avoidance of doubt, the OPTAVIA plan and products are not labelled, advertised or promoted for any specific medicinal purpose, i.e. treatment or prevention, implied or otherwise, of any disease or disorder, including its related conditions.

The OPTAVIA plan, products, and any of its materials and/or information do not in any way constitute medical advice or substitute for medical treatment. As individuals may have different responses to dietary products or changes in diet, consult with your healthcare provider regarding any medical concerns.

For further information regarding this Medical Disclaimer, call nutrition support at 1.888.OPTAVIA or email at nutritionsupport@OPTAVIA.com.
Getting Started

OPTAVIA for Teens Plans incorporate small meals every two to three hours, so carbohydrates and protein are spaced evenly throughout the day. And all Fuelings are carbohydrate-controlled and generally lower in fat, making them a healthy choice for those working to achieve a healthy weight. As you begin, we encourage you to talk to your OPTAVIA Coach, who will help support you and steer you to success. They will be there to help you celebrate the little victories that add up to big ones!

The Optimal Health 3 & 3 Plan®

Continuing on your path toward Optimal Health

Once you’ve achieved your healthy weight, it’s crucial to maintain the good habits you’ve learned, including fueling your body every two to three hours. To help sustain your healthy weight, we’ve developed the Optimal Health 3 & 3 Plan. It focuses on nutritionally balanced small meals eaten every two to three hours, while integrating more food choices in the right portions. Your OPTAVIA Coach can tell you more about the Optimal Health 3 & 3 Plan developed by our team of Registered Dietitians.

To follow the Optimal Health 3 & 3 Plan, consume three Optimal Health Fuelings daily and three balanced meals.
We're with you every step of the way
